

How To Measure Bangle Size

1. To find the correct bangle size, you need to measure your hand to ensure that the bangle will fit over your hand. To measure your hand, you will need a measuring tape, a strip of paper, or a piece of string and a ruler.
2. Bring your thumb and little finger together and measure around your knuckles and the rest of your hand where your hand is the widest.
3. If you are measuring without a tape measure, you can measure the string or paper against a ruler which will give you the circumference of the bangle. It is advisable to measure in mm as Isabela Jewellery bangles sizes are displayed in mm.
4. An easier way to find the correct bangle size is to measure the inside diameter of a bangle that you already own and fits you properly. How to measure the inside diameter of a bangle is in the image below. Once you have measured the diameter in millimetres, times the diameter by 3.14 – this will give you the bangle circumference.

Inside Diameter:

Isabela Jewellery Bangle size chart:

Small bangle is 185mm
Medium Bangle is 195mm
Large Bangle is 210mm
Extra Large is 220mm

How To Measure Bracelet Size

1. To find the correct bracelet size, you need to measure your wrist to ensure that the bracelet will fit. To measure your wrist, you will need a measuring tape, a strip of paper, or a piece of string and a ruler. Measure loosely around your wrist where your wrist is the widest, this will give you the circumference of the bracelet.

Isabela Jewellery Bracelets are one size of 185mm.

This can be adjusted to fit your wrist size if the one size is too small or too large. Use the custom option at checkout.
